CERTIFICATE OF SATISFACTORY COMPLETION

To DPE

KM initiated a reform programme in the accounting area through a project "*Financial Management of Kabul Municipality*" which is part of Kabul Urban Reconstruction Project (KURP), supported by World Bank in February, 2006. M/s Infrastructure Professionals Enterprise Private Limited (IPE), New Delhi, was appointed for implementing this financial management programme in the KM in the capacity of Financial Consultants. As longer handholding was felt by us for successful implementation of New Accounting System, their contract was extended till June, 2007 by Donor Agency, World Bank.

I am glad to certify that KM remarkable improvement in the recent months in accounting and financial management of their operations, in no small measure is attributed to extremely competency consultancy of IPE in such a complex organisation. It is worth mentioning that it is due to their effort only that new accounting system was successfully implemented from SY 1386. It was due to their conscious effort that for the first time Annual General Financial Statement was prepared, thoroughly discussed and circulated to all concerned Ministries and Donor Agencies. IPE assistance has gone beyond the call of their conventional duty during the entire duration of the Project.

IPE deserves more than a word of praise for not only completing the work before schedule time but also for their intensive and effective training of KM staff.

To conclude, I would like to mention that behaviorally and competency- wise, IPE does not have any competitors in its wide zone of expertise and I wish them to win more laurels in the future.

Sincerely,

Mohammad Faqir Bahram
Deputy Mayor of Kabul
